THE OLD CHAPEL, SEEND CLEEVE Seend SN12 6PY

A fabulous and imaginative conversion of an old, Grade II Listed, Methodist Chapel, juxtaposed with a modern, state of the art extension sitting alongside, creating a spacious and unique home.

Worship ceased in the chapel in 1979 and, whilst the church retained the graveyard behind the house, the current owners have added a linked extension and created modern and light living spaces, using high quality materials, whilst maintaining the original character and features of the old building. The extension has a pre-weathered, zinc roof and elevation with Iroko cladding on the south side, the wooden floors are engineered oak as are all the doors. The ground floor also benefits from underfloor heating and all the toilets are fed using a rainwater harvest system.

Inside, contemporary styling in the kitchen and huge, open-plan living space downstairs sit alongside the smaller, user-friendly utility and office spaces. Cleverly making use of the large ceiling heights, they have created an open reception space which sits, 'floating' over the main living area. Glass walls allow the space to maintain the original openness and look out across the fabulous views to the south. Perfect as a secondary seating area for socialising there are wall mounted sockets for tv and plenty of room for any style of furniture.

From this central space there is access to two double bedrooms at the front of the house which retain the delightful arched windows of the original chapel and which would also make good office space. Between the two bedrooms is a shower room.

In the new, contemporary side of the property are a basement living area - currently a cinema room - with bifold doors out to the covered terrace and garden beyond. Above this is a bedroom/reception room also with full width bifold doors and balcony, again overlooking the beautiful southerly views. On the top floor is the master bedroom with fitted cupboards lining one wall and sliding doors open on to the garden and views, with juliet balcony and large ensuite bathroom with separate shower. A further bedroom, again with a long run of fitted cupboards, sits to the front of the house with ensuite shower.

On the ground level, to the front of the property is the double garage which provides parking for two cars behind the electric doors. There is room for one car to pull up off the road to the front and an electric car charging point.

The garden to the rear is partially walled and laid to lawn. There is a shed for storage and a range of fruit trees.

For those who like high tech features, the property has been fitted with a security alarm system, cctv with remote monitoring, interconnecting smoke and fire detection, sonos music system with in-ceiling sonance speakers in all key rooms and the cinema room has dolby in-wall speakers, amplifier, blu-ray DVD system and auto drop down hi resolution screen and 4k projector.
